# Corporate Overview

**DELTA TANKERS Ltd.** was established in 2006 to manage a modern fleet of **twenty-nine (29) oil tankers** with a total **deadweight in excess of five (5) million tons**.

Through its long-standing commitment to safety and by providing high quality services to its clients while striving to continuously minimize the impact of its activities to the environment, **DELTA TANKERS Ltd.** has secured a leading role as an international ship manager and operator.

**DELTA TANKERS Ltd.** is committed to maintaining its leading position in the shipping market and its optimum operational, quality, environmental and safety standards by constantly meeting the needs of the shipping industry for safe and efficient world-wide marine transportation.

# Our mission

**DELTA TANKERS Ltd.** aims to continue its progress towards the next era with the foresight and robustness of its founder, whilst upholding its uncompromising dedication to Quality Shipping. It is part of our business strategy to operate in a sustainable manner and reduce continuously the environmental impact of our activities.

**We continuously strive to improve our performance and services towards our clients and their cargoes. We are committed to **ZERO accidents** and **ZERO spills** by rigorously adhering to international environmental Rules & Regulations.**

# Our values

 **INTEGRITY** We have integrity as the basis for our business ethics.

 **RELIABILITY** We deliver cargo in a reliable and efficient manner to our clients.

 **INNOVATION** We promote a culture of continual improvement and innovation to achieve sustainability.

 **CARE** We care about our employees and maintaining a fair, open and non-discriminatory working environment.

 **COMMITMENT** We commit to an ethos of corporate social responsibility and the preservation of natural resources.

# Social Responsibility

**DELTA TANKERS Ltd.** safeguards diversity and equal opportunities in our employment practices whilst offering a safe and healthy workplace for all at sea and ashore.

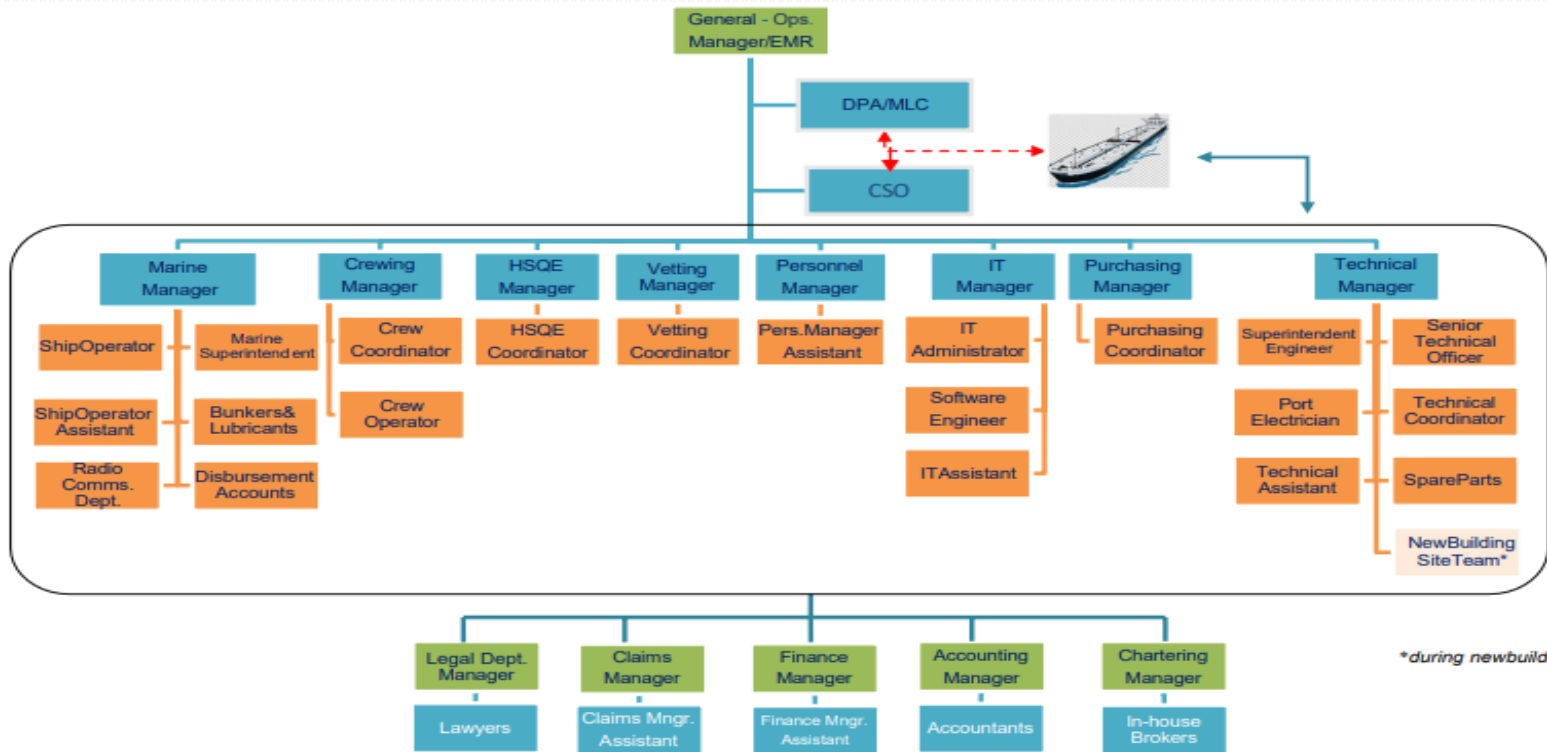

The Company subscribes to the requirements of MLC, ILO and ITF and supports the principles set out in the United Nations Universal Declaration of Human Rights.

Additionally, **DELTA TANKERS Ltd.** actively participates in **SHELL Partners in Safety** initiative for ZERO Incidents Industry since 2011.

Quality Management skills and standards of work ashore and on board are continually improved by promoting over and above STCW training, on the job familiarization, realistic drills and Best Industry practices.

# DELTA TANKERS Fleet

# Operations

Our fleet operates worldwide with the focus on safely carrying oil for our first-class customers.

An approximate total of more than **twenty-eight (28) million tons of oil** are being safely transported annually by DELTA TANKERS Ltd.

At DELTA TANKERS Ltd. we load and discharge cargoes on daily basis, following the evolving trading routes of the oil trade.

**Our fleet which comprises of **AFRAMAX, SUEZMAX Ice Class, SUEZMAX and VLCCs**, is operated to the highest standards, offering premium services to our customers in terms of safety, navigation, cargo handling and commercial responsiveness.**

# Worldwide activity

# Chartering

The chartering activities of **DELTA TANKERS Ltd.** are done on the basis of building solid partnerships with top notch Charterers. Our aim is to ensure that their cargoes are transported safely, without operational issues and by providing the first class services they expect.

Customer complaints and Claims are being quarterly monitored via measurable targets incorporated in yearly Key Performance Indicators.

# HSQE Management

Health, Safety, Quality and Environmental protection are the core values of DELTA TANKERS Management System. Our goal is to strive for excellence by identifying and managing the safety and health risks our seafarers and employees are exposed to, to eliminate accidents at sea and to minimize the environmental impact of our daily activities.

Our HSQE goal is to achieve **ZERO HARM** to our people and deliver our services with minimal environmental impact.

The HSQE department is committed to creating a positive safety culture, which involves developing values, attitudes, competencies and patterns of behavior in groups and individuals.

# Safety Policy

**DELTA TANKERS** HSQE objectives are established and actively monitored by our Safety & Quality personnel, with the relevant policies and practices being disseminated across the fleet to promote a robust safety culture on board our vessels.

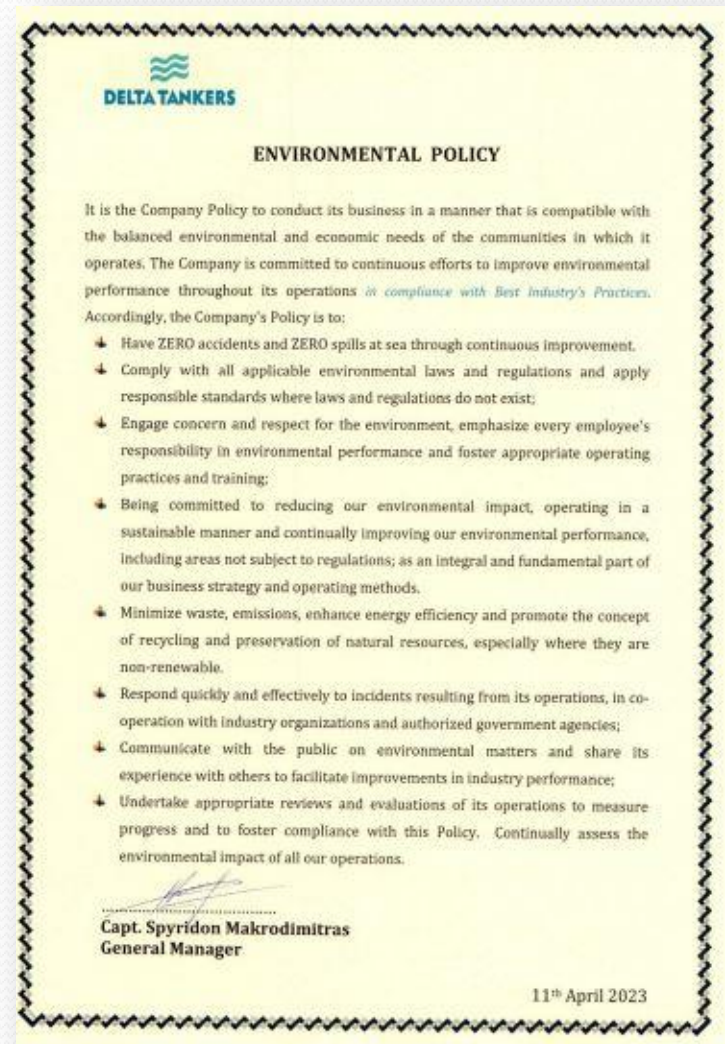

# Environmental Policy

**DELTA TANKERS** Environmental policy sets the goal of **ZERO incidents & ZERO pollution** through continuous improvement.

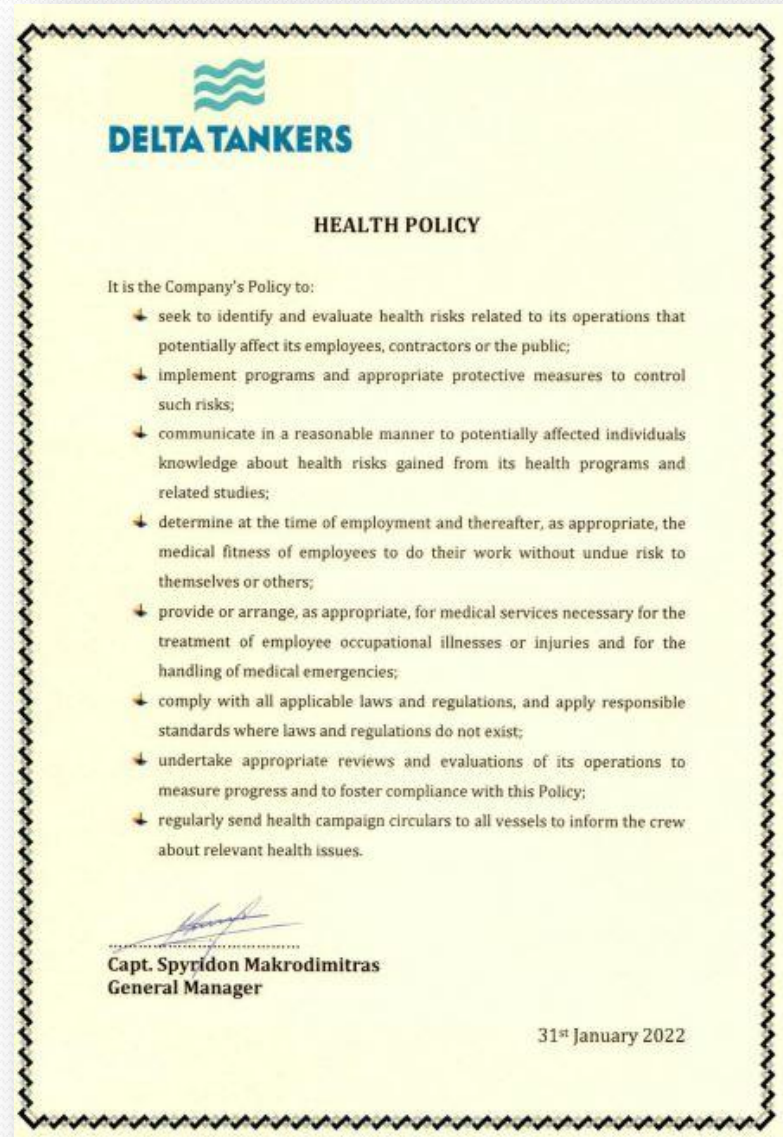

**DELTA TANKERS** is committed to manage its fleet in an environmentally sound manner, consistent with statutory regulations, classification society rules, customer requirements and industry recommendations.

# Health Policy

We, at **DELTA TANKERS** define Health as the state of physical, mental and social well-being, the freedom of disease or abnormality, the ability to cope with everyday activities.

Both sea-going and shore based personnel should demonstrate their commitment to safety, environmental excellence targets the company has set.

# Quality Policy

We, at **DELTA TANKERS**, strive to continuously improve the effectiveness and performance of the Management System in order to fulfill Customers requirements.

# HSQE Certifications

**DELTA TANKERS Ltd.** operates and maintains an integrated Safety, Quality & Environmental Management System, in accordance with the requirements of the ISM and **ISO 14001:2015** Standards, and is certified by Lloyd's Register Classification Society.

Our Safety, Quality and Environmental Management System addresses the monitoring of all aspects of ship operations and shore activities controlled by the Company to ensure that they are conducted in a safe, efficient and environmentally sound manner, and are consistent with customer requirements and prevailing statutory regulations, classification society rules and industry recommendations.

# HSQE Certifications

**DELTA TANKERS Ltd.** is committed to the protection of the environment and strives to operate its fleet in an environmentally responsible manner.

DELTA managed vessels incorporate features that meet or exceed the strictest global environmental standards. Environmental improvements are incorporated into new-building designs and shipboard operating practices.

**DELTA Tankers Ltd.** has since December 2007 continuously attained **ISO 14001 “Environmental Management”** certification by Lloyd’s Register.

# Zero Incidents – HSSE Excellence

**DELTA TANKERS Ltd.** actively participates in SHELL Partners in Safety initiative for **ZERO Incidents** Industry since 2011.

All four pillars of SHELL initiative are being monitored via relevant Key Performance Indicators (KPIs) in order to verify compliance and identify actions to drive continuous improvement.

**The ultimate goal of ZERO Incidents is being incorporated in company HSQE Policy.**

# Technical Management

All vessels were built under the supervision of **Delta Tankers Site Team** at First Class **Korean yards (HHI, HSHI, DAEWOO, SAMSUNG)** and highly reputable **Chinese yards (NTS, JINHAI)**.

Vessels are of high-spec designs, fitted with equipment and systems which meet Class/Flag requirements and on cases exceed industry safety and environmental standards.

**Twenty-three (23)** out of total twenty nine (29) managed vessels **are equipped with energy saving devices** for energy efficiency and voyage optimization.

**It is company's policy to apply silicone paint on propellers (except for Ice Class vessels) in order to ensure long-term efficiency with less fouling rate.**

# Technical Management

Technical Department is responsible for the monitoring of the fuel consumption and the emissions related to the performance of the fleet thus ensuring sustainability and minimizing, to the extent possible, company's imprint to the environment.

**LAROS tool** is used for “real-time monitoring” of vessels' performance and energy efficiency.

The Technical Department drives innovation and supports Management, Chartering, Operations and Safety departments in the decision making process and risk mitigation.

**DELTA TANKERS Ltd. is an ISO 14001:2015 “Environmental Management” certified company by Lloyds' Register.**

# Energy Efficiency

At **DELTA TANKERS**, we are strongly committed to environmental sustainability.

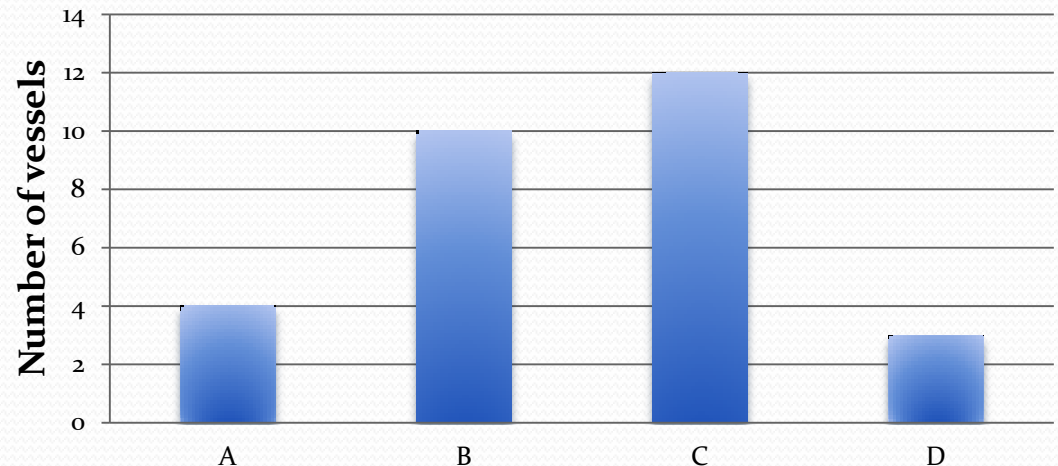

We recognize the urgency of addressing climate change and reducing our carbon footprint.

As part of our dedication to these principles, we prioritize enhancing energy efficiency across all facets of our operations.

Through the implementation of innovative technologies and practices, we continuously strive to minimize energy consumption and optimize resource utilization.

**“Our proactive approach ensures compliance with new regulations and industry standards while also contributing to a healthier planet for future generations.”**

## Fleet CII Rating 2024

# Crew Management

**DELTA TANKERS** fleet is predominantly manned with seafarers from **Greece** and the **Philippines** whilst **Russian, Ukrainian, Romanian & Georgian Officers** are also included in the tanker-dedicated company pool.

The employment criteria for Officers meet or exceed the minimum mandatory requirements of the Flag Administration (Greece & Liberia) and those stipulated in MLC. Charterers' and TMSA requirements are incorporated in company practices.

The Company voluntarily subscribes to the principles of the **Green Award** initiative and holds a 3-year Green Award Certification.

# Crew Management

Our people, our family.

**DELTA TANKERS Ltd.** through its exclusive Manning Agent in Manilla, supports the selection, recruitment, placement and training of the Filipino seafarers and maintains high rotation rates and a robust company pool.

Collaborations with third party training providers including a comprehensive and extensive e-learning suite, complete the requirements demonstrating the company's deep interest and strong commitment to enhanced knowledge.

**E-Learning** modules are accessible both on board and ashore, enabling seafarers to carry out same at their own time achieving the best result whilst at the same time the benefit is maximized.

# Shore Personnel Management

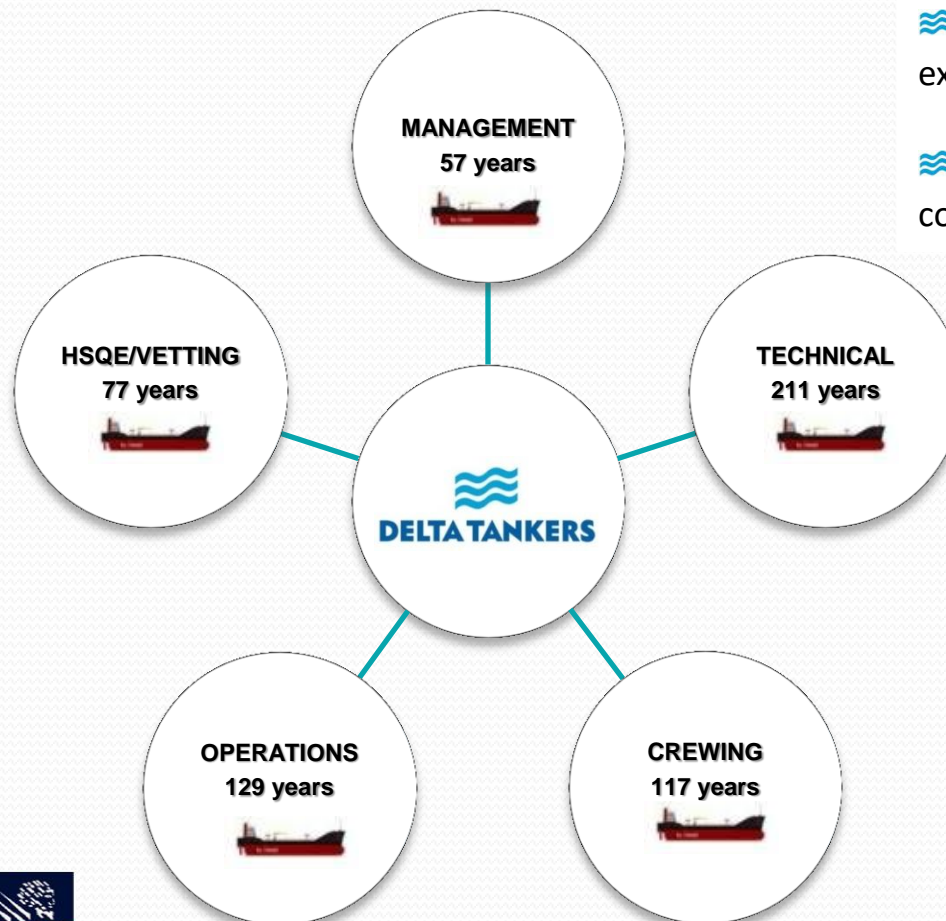

Connected by our passion for shipping

We, at **DELTA TANKERS Ltd.** are constantly looking for self-motivated and hard-working people who are as excited to become part of the maritime community of professionals and transport cargo across the globe in a safe, efficient and environmentally sustainable manner.

# Key Personnel shipping experience

Key personnel total sea experience: **180 years**

Key personnel years within the company: **315 years**

# Benchmark & Safety Statistics Overview

**DELTA TANKERS Ltd.** monitors its safety performance through benchmarking with highly reputable industry associations, such as INTERTANKO.

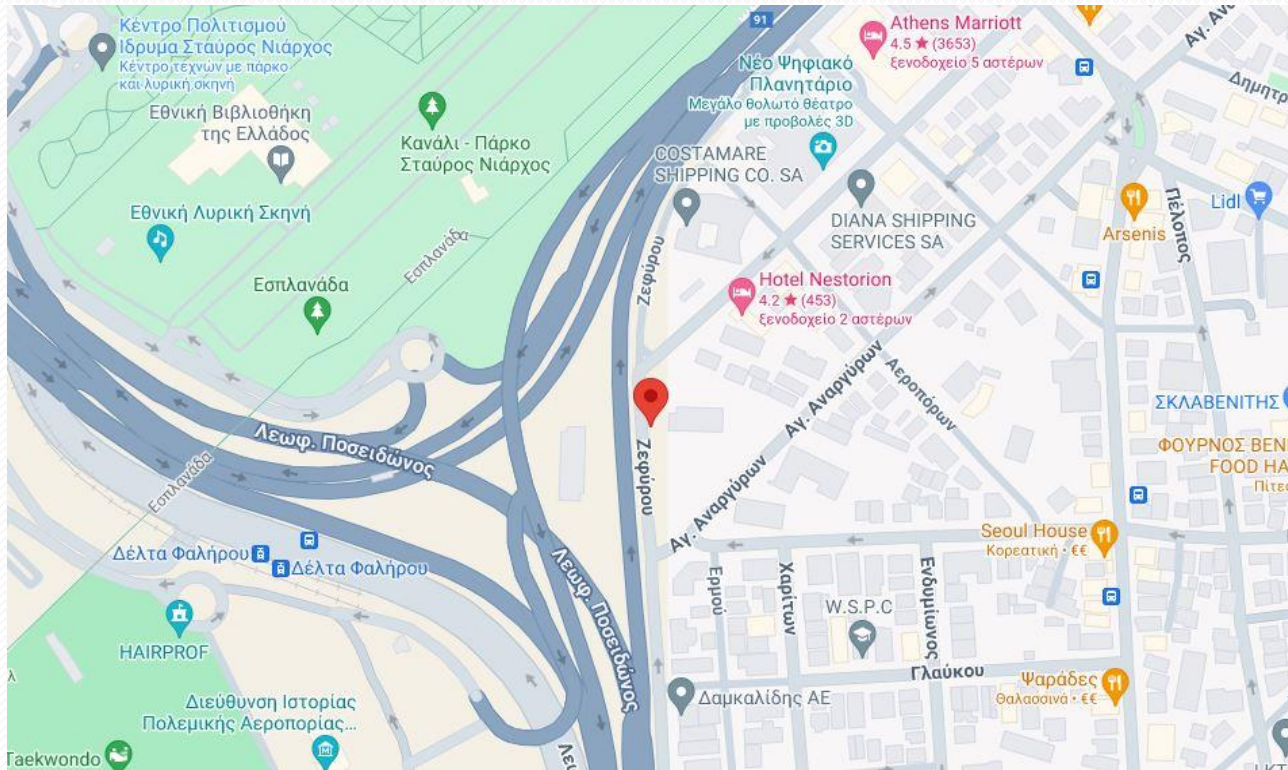

**Leading Safety Indicators such as LTIF (Lost Time Injury Frequency) & TRCF (Total Recordable Cases Frequency) & TMSA (Tanker Management Self Assessment) compliance** are annually measured.

Data for the year 2024 confirm targets related to safety performance have been achieved whilst benchmark with the industry demonstrates excellent levels of compliance with both regulatory and customers requirements.
